**WHAT CATARRH IS**  
It has been said that every third person has catarrh in some form. Science has shown that nasal catarrh often indicates a general weakness of the body; and local treatments in the form of snuffs and vapors do little, if any good.  
To correct catarrh you should treat its cause by enriching your blood with the all-food in Scott's Emulsion which is a medicinal food and a building tonic, free from alcohol or any harmful drugs. Try it. Scott & Bowne, Bloomfield, N. J.  
it for you. Look for his advertisement in this paper in the issue of next week and see the prices he is quoting. They compare favorably with Manchester or other towns. Give him a call and see what he can do for you.  
**Dorset Inn Notes**  
The following registered at the Dorset Inn during the past week: H. J. White and J. B. Hubbell, North Bennington; Mr. and Mrs. H. Sharp, Troy; A. G. Henderson, New York; W. K. Van O'Linda, New York; Mr. and Mrs. J. E. Burke and Mr. and Mrs. N. Cottrell of Bennington; Mrs. G. R. Putnam, Washington, D. C.; Mrs. Robert Binckard, H. H. Mills, Miss Mary Shaw, Mrs. William Shaw, of Albany.  
Mrs. Z. Chaffee left Monday for her home in Providence, R. I., where she expects to spend a few weeks before leaving for her summer home in Sorrento, Me. Mrs. Chaffee will be missed very much by the summer colony.  
**Wade Inn Notes**  
Mrs. George R. Putnam of Washington, D. C., was a guest of Mrs. D. W. Houston of Troy, N. Y., at supper on Thursday evening.  
Mr. and Mrs. R. L. Lockwood, daughter Betty and son John took dinner here Sunday.  
The "big four" of Dorset: Ernest E. Manley, Jo. H. Harrington, Jr., P. M. Peltier, and A. A. Seymour, took supper here Sunday evening.  
Dr. David W. Houston and chauffeur took dinner here on Sunday.  
**Dorset Library Entertainment**  
The Town Hall was crowded on Wednesday evening when the "Dorset Delineator" was given for the benefit of the Dorset Library. From cover to the cover the magazine was one that Harper Bros would be proud of.  
The cover was designed by our own artist, Mr. Fahnestock, and other noted Dorset and Manchester contributors were John Vance Cheney, Miss Cleghorn, Edwin LeFevre, and (nee Miss Zephine Humphrey) Mrs. W. W. Fahnestock.  
The hit of the evening was a minuet dance by some of our small children. The little ones received a well earned applause. Also a rose drill and bubble song and choruses by 12 of the grammar school girls. Much credit is due to the teachers for their work in training the children. Aunt Molly's question box and the advertisements gave opportunity for some local hits and caused much merriment which relieved the seriousness of the rest of the entertainment.  
This novel entertainment was one of the best of its kind ever given in Dorset, and \$65.50 will be turned over to the library.

## "Busy" or "Don't Answer"

WHEN THE OPERATOR REPORTS THAT "THE LINE IS BUSY," is because she has taken the time to test the line called for. It would be easier for her to complete the connection than to make such a report. If the operator did not test on every call, she might plug in on a busy line.

Furthermore, "Busy" means that the line (not necessarily the telephone number you have called) is in use. The subscriber on a four-party line may not be talking, but one of the three other subscribers may be, making the entire line closed to traffic, or some one of the party subscribers may have put in a toll call and the line is being held awaiting its completion. Lengthy conversations on unimportant matters often congest party lines and give cause for protests from other subscribers in common.

WHEN THE OPERATOR REPORTS "THEY DON'T ANSWER," she has done all within her means to compel an answer to her summons. That summoning power is the ringing of a bell, a mechanical signal which says, "Someone desires to speak to you." It remains with the person called to be prompt in responding.

If a subscriber is slow in responding, the calling person may hang up the receiver, assuming that the former is inaccessible. Then there is an additional inconvenience to the called person when the operator reports, "There is no one on the line now, please excuse it." The operator who makes that report usually is located at a different switchboard than the operator who rang the bell, and is unable to ascertain where the call originated.
